PLANT PATENT AMENDMENTS
ACT OF 1997

• Mr. SMITH of Oregon. Mr. President, yesterday I introduced a bill, S. 1072, that corrects an unintended loophole in the Plant Patent Act of 1930 dealing with the coverage of plant parts. The 1930 act covers the whole plant but did not address plant parts, resulting in a loophole whereby some growers, particularly in foreign nations that do not have plant breeders' rights laws, are reproducing U.S. patent-protected varieties without authorization. They then export the harvested materials—plant parts—such as flowers and fruits, to the United States. The loophole has been created by new production and transportation capabilities unforeseen 67 years ago.

As a result, American plant breeders are losing royalty income that supports continued research and breeding of new and improved varieties. Domestic growers who are paying legitimate royalties are also finding themselves at an unfair disadvantage to foreign growers producing patented varieties illegally.

The Plant Patent Act of 1930 has historically offered a strong incentive for research and breeding activities, which is the foundation for a progressive and growing U.S. horticultural industry.

This legislation amends the Plant Patent Act to expressly cover plants and plant parts by inserting at the end of 35 U.S.C. 163, the words "or any parts thereof." This solution provides relief to U.S. breeders and growers, and would help ensure that the United States remains an international leader in the development of new and useful plant varieties. It will enable plant and patent holders the opportunity to protect their patent rights and continue investing in research and development. S. 1072 is also consistent with the 1991 International Union for the Production of New Varieties of Plants, which extends plant breeders' rights protection to harvested material.

Mr. President, I ask that the text of the legislation be printed in the RECORD.

The text of the bill follows:

S. 1072

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Plant Patent Amendment Act of 1997".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress makes the following findings:

(1) The protection provided by plant patents under title 35, United States Code, dating back to 1930, has historically benefited American agriculture and horticulture and the public by providing an incentive for breeders to develop new plant varieties.

(2) Domestic and foreign agricultural trade is rapidly expanding and is very different from the trade of the past. An unforeseen ambiguity in the provisions of title 35, United States Code, is undermining the orderly collection of royalties due breeders holding United States plant patents.

(3) Plant parts produced from plants protected by United States plant patents are being taken from illegally reproduced plants and traded in United States markets to the detriment of plant patent holders.

(4) Resulting lost royalty income inhibits investment in domestic research and breeding activities associated with a wide variety of crops—an area where the United States has historically enjoyed a strong international position. Such research is the foundation of a strong horticultural industry.

(5) Infringers producing such plant parts from unauthorized plants enjoy an unfair competitive advantage over producers who pay royalties on varieties protected by United States plant patents.

(b) PURPOSES.—The purposes of this Act are—

(1) to clearly and explicitly provide that title 35, United States Code, protects the owner of a plant patent against the unauthorized sale of plant parts taken from plants illegally reproduced;

(2) to make the protections provided under such title more consistent with those provided breeders of sexually reproduced plants under the Plant Variety Protection Act (7 U.S.C. 2321 et. seq.), as amended by the plant Variety Protection Act Amendments of 1994 (Public Law 103-349); and

(3) to strengthen the ability of United States plant patent holders to enforce their patent rights with regard to importation of plant parts produced from plants protected by United States plant patents, which are propagated without the authorization of the patent holder.

SEC. 3. AMENDMENT TO TITLE 35, UNITED STATES CODE.

(a) RIGHTS IN PLANT PATENTS.—Section 163 of title 35, United States Code, is amended to read as follows:

"§ 163. Grant

"In the case of a plant patent, the grant shall include the right to exclude others from asexually reproducing the plant, and from using, offering for sale, or selling the plant so reproduced, or any of its parts, throughout the United States, or from importing the plant so reproduced, or any parts thereof, into the United States."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to any plant patent issued on or after the date of the enactment of this Act. •

WIPO IMPLEMENTING
LEGISLATION

• Mr. LEAHY. Mr. President, yesterday, the administration transmitted its legislative proposal for implementing the two new treaties adopted in December 1996 by the World Intellectual Property Organization [WIPO]. Over the past few months, I have spoken and written to Secretary Daley of the Department of Commerce urging him to transmit this proposal without delay. The legislative package we received yesterday is an excellent start for moving forward. I commend the ad-

ministration, Secretary Daley and, in particular, Assistant Secretary Bruce Lehman of the Patent and Trademark Office for their hard work on this proposal.

I understand that the administration's proposal will be introduced in the House of Representatives today. Along with Senator HATCH, I am reviewing the proposal. I hope we will be able to introduce the legislation this week so that we can take this matter up for hearings and further deliberation and action promptly when we return in September. •

JIM GAUPP

• Mr. FAIRCLOTH. Mr. President, Jim Gaupp was a fine American whose life touched many people. He was devoted to his family, and committed to his community. The following is an excerpt from the program at Jim's funeral, held at the Pinecrest Presbyterian Church in Hendersonville, NC:

PSALM 121

I will lift up mine eyes unto the hills, from whence cometh my help.
My help cometh from the Lord, which made heaven and earth.
He will not suffer thy foot to be moved; he that keepeth thee will not slumber.
Behold, he that keepeth Israel shall neither slumber nor sleep.
The Lord is thy keeper: the Lord is thy shade upon thy right hand.
The sun shall not smite thee by day nor the moon by night.
The Lord shall preserve thee from all evil; he shall preserve thy soul.
The Lord shall preserve thy going out and thy coming in from this time forth, and even for evermore.

James Louis Gaupp was born in Elk City, OK. In time, Jim moved to Columbus, OH, where he worked for Williams & Co., the metals warehouse. During his 47 years with Williams, Jim worked his way through the ranks and retired as a district manager and vice president. Jim Gaupp's commitment was to be a "Christian businessman and father."

In Columbus, OH, Jim Gaupp was very active in community service. He was very active in his church, in the chamber of commerce, and in the Kiwanis Club.

Jim and Betty Gaupp moved to Hendersonville in 1982, and quickly became vital parts of the Pinecrest Church. At Pinecrest, Jim served as an elder, Sunday school teacher, and faithful member.

In the Kiwanis Club of Hendersonville, Jim Gaupp was faithful; 51 years of perfect attendance at various Kiwanis Clubs was a record attained by Jim.

Jim Gaupp was an outstanding Christian gentleman. Jim was an ardent student of the Bible—entrusting large portions of Scripture to memory. Jim was a great man of prayer. As much as anything else, Jim Gaupp was a great example and model for the sake of Christ
